ABOUT THE STUDIO

WHO WE ARE

Afonin Web Studio is a full-stack development studio based in Armenia. Founder Vladislav Afonin personally plans, designs and codes every project: you talk directly to the developer, with no account managers in between.

We build with Next.js, React, Node.js and modern databases. AI tools speed up the work, and the time saved goes into quality and testing.

**CLEAN CODE**

Readable and reliable

**SPEED**

Fast on mobile

**GROWTH**

Architecture built to scale

5 YEARS

6 REASONS TO WORK WITH US

WHY CLIENTS CHOOSE US

01**Three languages, one site**

HY, RU and EN. Armenian copy is proofread by a native speaker. Locals, expats and tourists can all find you.

02**Leads straight to your phone**

Every lead arrives instantly in Telegram or WhatsApp — no client slips away.

03**Real code, not a builder**

Next.js and React — the stack of major products. Fast loading and SEO from day one.

04**Mockup before payment**

We design the main screen for free. You decide once you've seen the result.

05**Official and transparent**

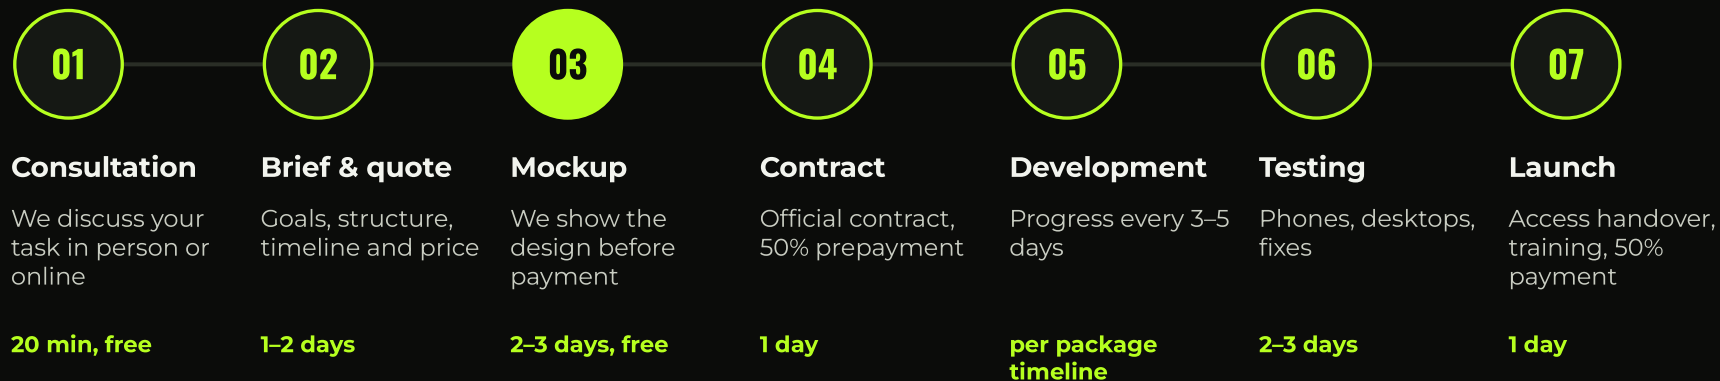

A contract with a registered business, fixed price and timeline. The second half is paid after launch.

06**You own everything**

Domain, hosting, code and access are in your name. 12-month warranty on our bugs.

THE SAME FOR EVERY PROJECT
